Professional Summary

IT student with strong problem-solving abilities and experience delivering real-world software projects. Skilled in teamwork, communication, and consistently improving through hackathons and technical events

Education

Gokaraju Rangaraju Institute of Engineering and Technology, Hyderabad	CGPA: 8.84/10
Bachelor of Technology in Information Technology	Nov 2022 – May 2026
Alphores Junior College, Karimnagar	984/1000
Intermediate (MPC)	2020 – 2022
Krishnaveni Talent School, Metpally	GPA: 10/10
Secondary School Certificate (SSC)	2019 – 2020

Skills

Programming Languages: Java, C, C#.

Backend Development: Spring Boot, REST APIs, Object-Oriented Programming, Software Development.

Databases: MySQL, SQLite, SQL.

Web Development: HTML, CSS, JavaScript.

Tools & Platforms: Git, GitHub, VS Code, MS Office.

Software Engineering: Data Structures & Algorithms, Debugging, Testing, Agile Methodologies.

Soft Skills: Problem Solving, Teamwork, Effective Communication, Adaptability.

Projects

QR-Based Patient Identification System *Python, Flask, SQLite, JavaScript, Twilio*

- Developed a Flask-based patient identification system using Python, SQLite, HTML, CSS, and JavaScript.
- Implemented role-based access control, patient profile management, medical report uploads, and secure data handling.
- Integrated Twilio SMS APIs to trigger emergency notifications when a patient's QR code was scanned.
- Designed backend workflows for communication between the application, database, and external APIs.

Hyderabad House Price Prediction *Python, Pandas, NumPy, Scikit-learn, Flask*

- Developed a machine learning pipeline to predict Hyderabad property prices using Python, Pandas, NumPy, and Scikit-learn.
- Performed data preprocessing, feature engineering, outlier handling, and model evaluation on real-estate data.
- Built and integrated a Flask web application to generate property price predictions from user inputs.
- Implemented an end-to-end workflow covering data preprocessing, model training, evaluation, and web-based prediction.

Certifications

- **AWS Data Engineering Virtual Internship** – Hands-on training in cloud-based data engineering.
- **AICTE Virtual Internship in AI/ML** – Practical exposure to machine learning concepts and AI tools.

Extracurricular Activities

- Volunteered at T-Works Maker Faire Fest, Hyderabad.
- Participated in Gen AI Hackathon, DevTalks, Ideathon, and Hack2Skills.
